PROGRAM FOCUS & SERVICE ACTIVITIES

AmeriCorps VISTA engages those from a diverse range of backgrounds in behind-the-scenes, capacity-building service activities such as fundraising, volunteer recruitment, or community outreach. Members serve at nonprofits or public agencies to create or expand programs that empower individuals and communities to overcome poverty.

Iowa AmeriCorps State programs utilize members to help further their organizational mission and expand their community impact. Members commit to providing primarily direct service activities in the fields of Education, Economic Opportunity, Health, Disaster Services, and Environmental Stewardship.

AmeriCorps NCCC engages members in teams who travel their region completing various hands-on projects. Service projects focus on disaster services, environment, infrastructure improvement, energy conservation, and urban and rural development; and may include disaster response, building trails, or working with youth.

PROJECT LOCATIONS

VISTA projects are located throughout the state. Projects are designed to serve one local community or service area. A [map of current service locations](#) is available on our website.
